

Akyplac®

Polypropylene twinwall sheet

Particularly suitable for printing and display applications

Akyplac®, light, rigid and inexpensive, is particularly suitable for printing and display applications including outdoor signs. This product can easily replace wood, paperboard, PVC or polystyrene foamboard.

Printing

Since it is particularly flat, **Akyplac®** was specially developed to meet the needs of the print sector for screen, flexo, ink jet printing, and laminating.

Akyplac® is the ideal material for printing all your display panels, signs or billboards.

Signage

Akyplac® is perfect for any type of outdoor signage or display panels because it is weather resistant.

In 5, 8 and 10 mm, it is also suitable for large format panels, with a high rigidity/weight ratio, ease of handling and cost efficiency.
